Step 6

Step 7

The image shows the Windows Startup Settings menu. It has a blue background with white text. At the top, it says "Startup Settings" in a large font. Below that, it says "Press a number to choose from the options below:" and "Use number keys or functions keys F1-F9." There is a list of nine numbered options. A red arrow points to option 7, "Disable driver signature enforcement". At the bottom, it says "Press F10 for more options" and "Press Enter to return to your operating system".

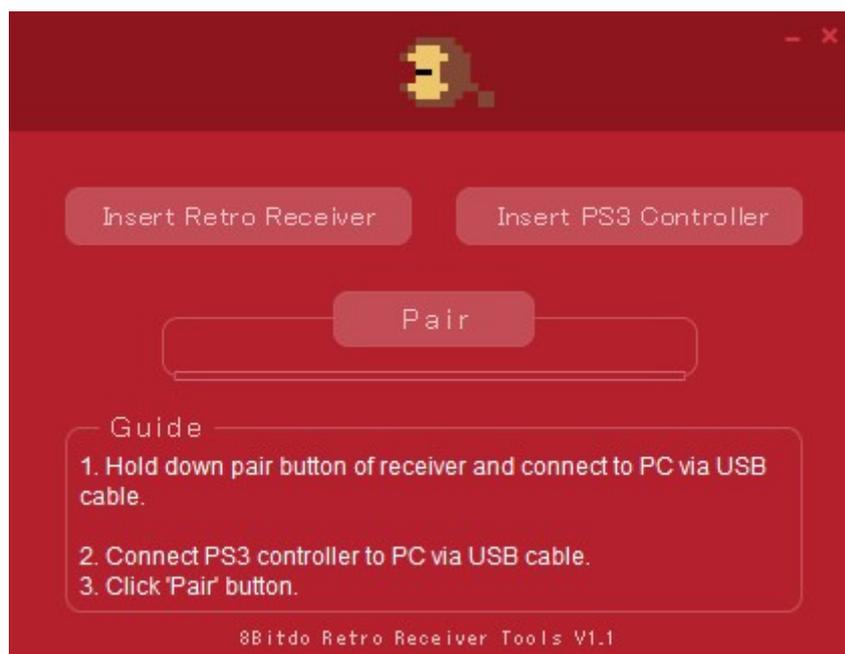

Startup Settings

Press a number to choose from the options below:
Use number keys or functions keys F1-F9.

- 1) Enable debugging
- 2) Enable boot logging
- 3) Enable low-resolution video
- 4) Enable Safe Mode
- 5) Enable Safe Mode with Networking
- 6) Enable Safe Mode with Command Prompt
- 7) Disable driver signature enforcement
- 8) Disable early launch anti-malware protection
- 9) Disable automatic restart after failure

Press F10 for more options
Press Enter to return to your operating system

Step 8 Open Tools

The image shows a software window titled "8Bitdo Retro Receiver Tools V1.1". The window has a dark red background. At the top center, there is a small yellow and black pixelated character icon. Below the icon, there are two buttons: "Insert Retro Receiver" and "Insert PS3 Controller". In the center, there is a large "Pair" button. Below the "Pair" button, there is a "Guide" section with three numbered steps: "1. Hold down pair button of receiver and connect to PC via USB cable.", "2. Connect PS3 controller to PC via USB cable.", and "3. Click 'Pair' button." At the bottom of the window, it says "8Bitdo Retro Receiver Tools V1.1".

8Bitdo Retro Receiver Tools V1.1

Insert Retro Receiver Insert PS3 Controller

Pair

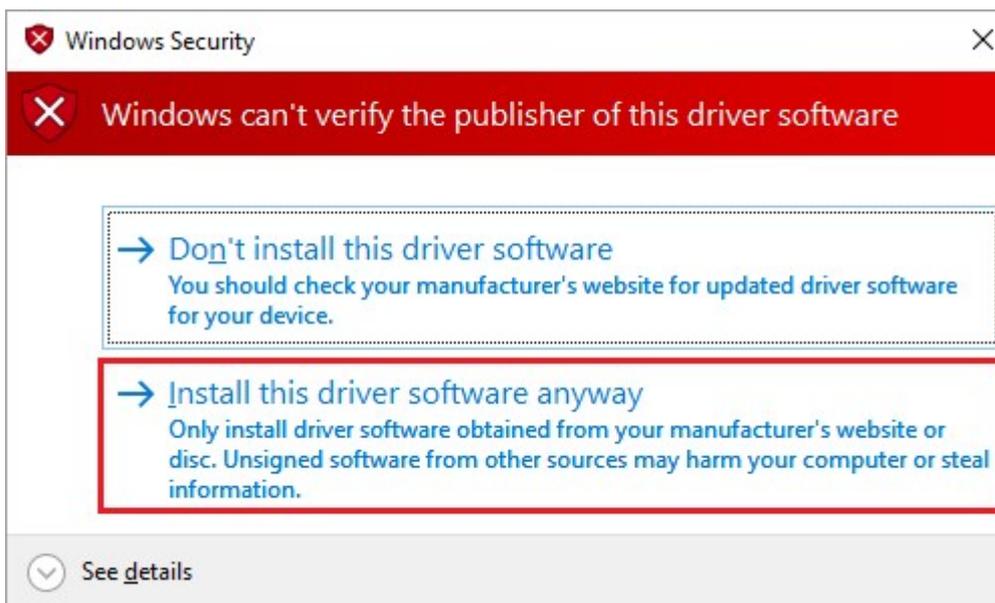

Guide

1. Hold down pair button of receiver and connect to PC via USB cable.
2. Connect PS3 controller to PC via USB cable.
3. Click 'Pair' button.

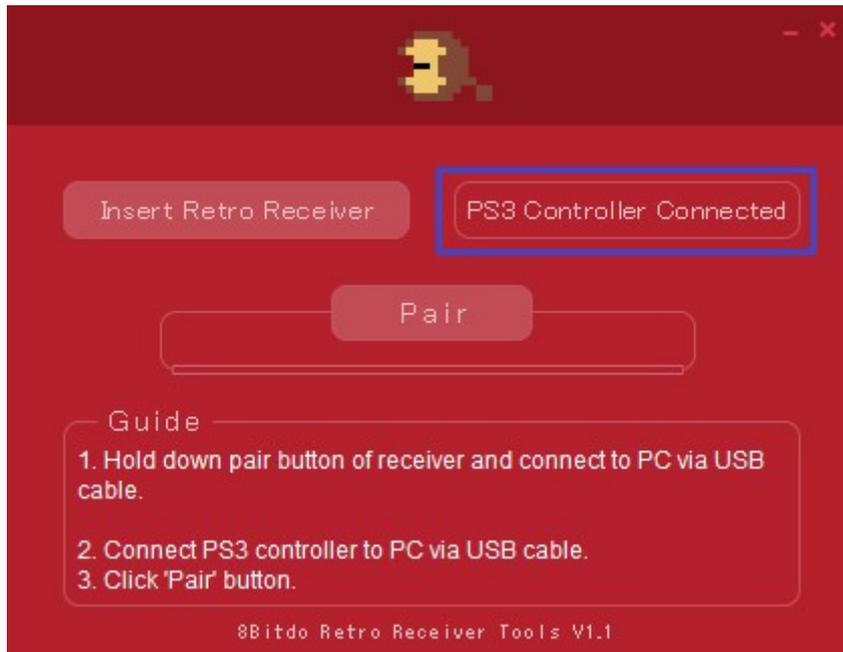

Step 9 Setup RR Tools driver (If the driver has not installed, it'll pop up the window)

Step 10 Choose "Install this driver software anyway"

Step 11 After the driver has installed, the PS3 controller will be detected once you plug in.

NOTE: “Driver Signature Enforcement” will resume after resetting the computer.
