Adaptador 2.4G Componente del adaptador LED indicador de carga

● Si el mando pierde el emparejamiento con el receptor o el receptor no está cargado, volver a emparejar el receptor siguiendo los siguientes pasos :

1. Mueva el botón de modo al modo 2.4G.
2. Conecte el receptor 2.4G a la puerto USB del dispositivo Windows.
3. Presione i botón Home para encender el mando.
4. Mantenga presionados los botones Home durante 3 segundos hasta que el LED indicador comience a parpadear rápidamente, indicando el modo de emparejamiento.
5. Espere a que el mando se empareje automáticamente con el receptor. Una vez completada la conexión, el LED indicador de estado permanecerá encendido.

System requirement: Windows 10 (32bit) or above.

Wireless Connection

1. Turn the Mode switch to 2.4G position.
2. Press the Home button to turn on the controller.
3. Hold the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
4. Connect the 2.4G receiver to the USB port of your Windows device.
5. Wait till the controller is successfully recognized by the device.

Wired Connection

Connect the controller to your Windows device via a USB cable and wait till the controller is successfully recognized by the device.

System requirement: Android 5.0 or above.

Bluetooth Connection

1. Turn the Mode switch to BT position.
2. Press the Home button to turn on the controller.
3. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
4. Connect the 2.4G receiver to the USB port of your Windows device.
5. Wait till the controller is successfully recognized by the device.

Turbo Function

1. Press the Home button, L4/R4 to turn on the turbo function.
2. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
3. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
4. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.

Turn on Turbo Mode

1. Press the Home button, L4/R4 to turn on the turbo function.
2. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
3. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
4. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.

Turn on Auto Turbo Mode

1. Press the Home button, L4/R4 to turn on the turbo function.
2. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
3. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
4. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.

L4/R4/PL/PR Buttons Configuration

1. Press the Home button, L4/R4 to turn on the turbo function.
2. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
3. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
4. Press the Home button for 3 seconds to enter pairing mode, the Status LED will start blink rapidly.
